

What is ChytaPay?

ChytaPay is a platform that automates massive recurring payment management, ideal for individuals and companies seeking to collect payments in an agile, economical, and friction-free way.

How do we simplify the collection experience?

ChytaPay automates manual processes, allowing users to schedule mass collections through bank transfers, send automatic reminders, and automatically reconcile received transfers. We transform collection management into an efficient and frictionless process.

How does it work?

- 1. Create your ChytaPay account
- 2. Upload your clients, define amounts to collect and due dates
- 3. ChytaPay handles:
 - Notifying clients with transfer details (CVU)
 - Automatically reconciling transfers
 - Sending WhatsApp reminders
 - Dashboard with payment status
 - Immediate fund accreditation

Why ChytaPay?

- **Complete automation:** Schedule recurring payments, notifications, and WhatsApp reminders without manual intervention
- **Reduces delinquency:** Automatic messages before due dates and follow-up to debtors
- **Intelligent reconciliation:** Identifies and reconciles payments automatically without reviewing receipts
- **Immediate accreditation:** Funds available in real-time in your CVU, withdrawable to any CBU/CVU under your ownership
- **Less administrative burden:** Centralized dashboard with status of all your collections
- **Convenience for your clients:** Simple bank transfers, no cash needed

Value Proposition

With ChytaPay you reduce operational costs, improve your collection flow, and get real-time information to make better financial decisions.

In summary, ChytaPay allows you to manage collections, reduce delinquency, and offer a simpler and more efficient payment experience for both your organization and your clients.

How long does it take to credit?

Immediately in your CVU, withdrawable to any CBU/CVU.

Can payments be collected in USD?

Not at the moment. Coming soon in our roadmap.

Who are we?

We are a group of young professionals, passionate about technology and the financial banking world. We believe that collecting payments shouldn't be a complicated or costly process, which is why we created ChytaPay, a platform that makes recurring payment management as simple, fast, and economical as possible.
