

The most advanced, comprehensive, and efficient solution for managing procurement and sourcing.

Esolbay is not just another alternative; it is the most advanced Procurement platform in the global market. It combines generative and analytical AI, extreme automation, and absolute control to radically transform procurement and sourcing processes, delivering superior and sustainable results.

Esolbay eliminates friction, cost overruns, and structural inefficiencies, establishing a new standard in efficiency, governance, and performance.

The global standard in Intelligent Procurement

While others digitize processes, Esolbay reinvents them:

- Full E2E cycle automation
- Complete, real-time, auditable traceability
- Autonomous AI-driven decision-making
- Absolute control over compliance and budgets

One platform. Unmatched results.

Esolbay intelligently centralizes and optimizes:

- RFx, sourcing, and strategic events
- AI-powered automated technical and financial analysis
- Intelligent awards and automatic Purchase Order generation
- Comprehensive supplier management and scoring
- Omnichannel supplier integration (Email + WhatsApp)
- Executive dashboards with predictive KPIs
- Integration with the leading ERPs in the market

Proven real impact

- Up to **30% direct cost reduction**
- Procurement cycle reduced from **21 to 7 days**
- ROI greater than **8:1**
- Full control, transparency, and compliance

Why is Esolbay the best solution?

Because no other platform combines:

- AI specialized in real-world Procurement
- Intelligent automation at scale
- Deep integration with corporate ecosystems
- Governance, compliance, and security
- Superior experience for teams and suppliers

Esolbay does not compete. It leads.

It is the definitive evolution of corporate Procurement and the strategic partner chosen by high-performance organizations to master their purchasing processes.
