ANDÉN

THE BRIDGE BETWEEN EXISTING REGULATION AND GLOBAL TECH CAPITAL

WHAT IS ANDÉN?

Andén is an Argentine company that designs and operates digital economic zones to modernize the institutional infrastructure of the Knowledge Economy.
Through proprietary technology, it integrates regulatory compliance, corporate management, administrative operations, traceability, and reporting in a single platform.

BRIDGING EXISTING REGULATION WITH TECHNOLOGY

Andén turns existing regulatory infrastructure into a competitive advantage to attract:

Tech companies	International investment	Talent	Service exports

- No new legislation required
- Without replacing the State

THE GLOBAL CHALLENGE

+7000
world economic zones

ONLY 250
truly operational

0
digital zones operating in latin america

USD 100K
current international structuring cost

THE OPPORTUNITY IN ARGENTINA

USD 9.7B
Knowledge Economy exports in 2025

+20.8%
year-over-year growth in knowledge-based service exports

TOP 10 GLOBAL
global developer density (github, 2024)

+283K
knowledge economy employees

2030 GOAL:
440K jobs

FIRST IMPLEMENTATION

MENDOZA, ARGENTINA

Memorandum signed to create the first Digital Zone of LatAm
