INTRO

At **TheEye**, we empower companies by **saving time** and **reducing costs** through the **automation of administrative processes with Artificial Intelligence.**

SOLUTIONS

We offer **two AI-powered SaaS solutions** for the administration, finance, accounting, and auditing areas. Our products **adapt to your processes and systems within weeks.**

Concil**ia**	Digit**AI**
ConcilIA is our AI-powered reconciliation solution that automates the comparison and matching of large volumes of financial and transactional data in seconds.	**DigitAI is our intelligent data entry solution that automates the extraction, validation, and submission of information from any type of document—scanned, photographed, or digital.**
It identifies discrepancies, applies custom business rules, and provides detailed reports—reducing manual work, minimizing errors, and improving control.	It uses AI to read and understand complex formats, reducing manual input, avoiding errors, and accelerating administrative workflows.

KEY BENEFITS

- **Cut operational costs.**
- **Reclaim your time to focus on what truly matters.**
- **Say goodbye to human error.**
