

EmOS – Emotional Operating System

In a world where emotional wellbeing directly impacts business performance, **CUX EMOS** offers a cutting-edge, white-label platform to predict, measure, and improve the emotional health of your people at scale.

What we do

CUX EMOS combines AI-powered emotional agents, telemedicine, analytics, and expert-led interventions into a modular infrastructure that fits your organization. Whether integrated into Slack, Teams, or delivered as a fully branded native app—we help you support your people without friction.

Ignored Emotions, Real Losses

▲ 25% increase in anxiety rates post-pandemic.

▲ 56% of workers admit experiencing anxiety or depression.

Companies that provide emotional support

☞ 25% improved quality of deliverables.

☞ 18% reduction in performance errors.

☞ 38% increase in employee retention.

☞ 82% of users who engaged with CUX improved or resolved their emotional challenge.

Our value chain

 **HAASC Certification** – Diagnose your team's emotional health with our proprietary Happiness As A Service Company seal.

 **Leadership Tools** – Empower your leaders with workshops and self-guided resources to navigate emotional complexity.

 **AI + Human-on-the-Loop Support** – 24/7 AI agents that trigger referrals to real professionals when risk is detected.

 **Predictive Analytics** – Real-time dashboards that reveal emotional trends, risks, and progress across your organization.

What sets us apart

- ✓ Fully white-label & embeddable.
- ✓ Predictive emotional risk models.
- ✓ Multi-tenant analytics dashboards.
- ✓ AI trained in CBT protocols.
- ✓ Built for companies, insurers & wellness ecosystems.
- ✓ Integration with HR & internal tools.
- ✓ Real humans when your people need them most.

  **Let's build healthier cultures, one emotion at a time.**
