

LEXGATE

# LAUREL

YOUR LEGAL TOOL:  
FROM HOURS TO  
MINUTES WITH AI

## THE PROBLEM

- **General and non-specialized platforms.**
- The legal sector incorporated some **technological tools** before the arrival of large language models (LLMs).
- Argentine lawyers **spend** up to **60% of their time** on mechanical tasks, such as conducting extensive searches and manual drafting.
- **Technological Barriers:** The necessity of learning prompting techniques hinders the efficient use of AI.
- **Hallucinations:** AI can produce incorrect information, as in the "Avianca" case.

## LAUREL TRANSFORMS

An AI-powered tool that **instantly searches** and **summarizes** case law while generating editable legal documents by **contextualizing** the conversation to **minimize hallucinations**.

All in a single platform.

## IN ACTION

A young lawyer created five variations of a legal notice in just 10 minutes, **astonished** by the speed.

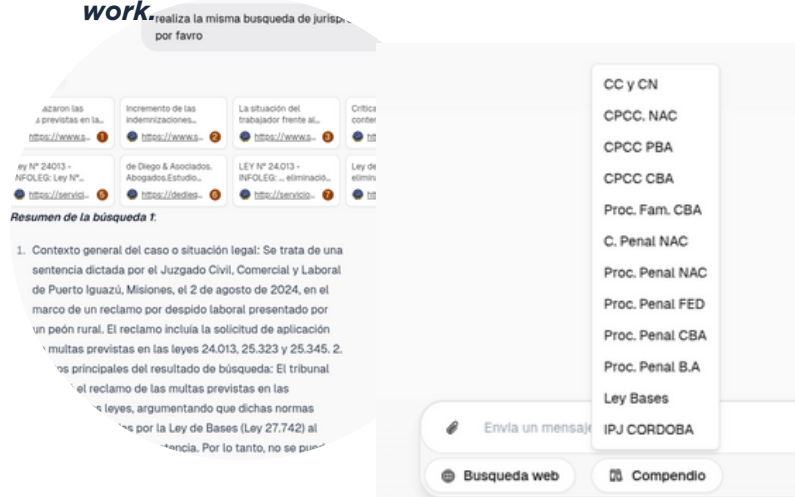

Another user drafted a paternity dispute lawsuit in minutes: Laurel found case law, cited the Civil and Commercial Code, and generated a ready-to-use draft.

**No more waiting days for legal information from the Bar Association.**

## WHAT MAKES US UNIQUE

Live editing, conducting local searches with verified and official sources, providing templates that guide users to achieve superior results with minimal knowledge, and more, including drafting in your personal style.

**It's the all-in-one tool for your everyday legal work.**

## ARGENTINE MARKET

126.000+

LAWYERS IN ARGENTINA (1 PER EVERY 365 INHABITANTS, FACA); 73% ARE ALREADY LOOKING FOR AI SOLUTIONS (IALAB 2024).

## FREEMIUM MODEL

30 INITIAL INQUIRIES FREE

5US\$

50-QUERY PACKAGE

10US\$

150-QUERY PACKAGE

20US\$

300-QUERY PACKAGE

**GLOBAL AMBITION:** CONQUER ARGENTINA PROVINCE BY PROVINCE, THEN EXPAND ACROSS LATAM.
