Extensive professional experience

The company brings together highly experienced artists in dance, music, and theatre, all trained in tango tradition and with outstanding careers both in Argentina and abroad. Each member contributes their own artistic identity and stage maturity, reflected in the ensemble's cohesion and in the strength of its artistic vision.

PROJECT OVERVIEW

Desde el Tango is a full-scale stage production that brings together the power of Argentine tango in its purest form: dance, music, and live singing.

The show takes the audience on an emotional and visual journey through stories of love, desire, and destiny, expressed through the universal language of tango. With a highly aesthetic and elegant cinematic style inspired by the 1950s and 1960s, Desde el Tango merges emotion, sophistication, and authenticity in a single artistic experience.
