VISION

To become the leading carsharing platform in Latin America, transforming how people move—making mobility more accessible, sustainable, and collaborative.

INCOME MODEL

Our business model is based on a **30% commission** on the total amount of each booking. We're also developing a dynamic pricing algorithm set to revolutionize the car rental industry.

POTENTIAL MARKET

Latin America still lacks a leading carsharing company in a market with an estimated **SAM of USD 15 billion**, including Florida, USA.

INVESTMENT ROUND

We've received capital from angel investors and venture capital funds. We are now opening a \$1M seed round.
