

About Us

telnova® is an advanced technology company, incubated in the prestigious Scientific and Technological Hub of the Pampean Agency for Sciences, Technologies, and Open Innovation (CITIA), located in the city of General Pico, La Pampa province. We specialize in the development of long-range wireless sensors, specifically designed for the agricultural, agro-industrial, and industrial sectors.

We are a company in the telecommunications, electronic development, and technological innovation sector. With a team of professionals with over 20 years of experience, we are dedicated to providing advanced, customized solutions that meet the needs of our clients in an increasingly interconnected and technologically advanced world.

Our Expertise

- Telecommunications: Our experience in telecommunications ranges from network infrastructure implementation to the development of advanced solutions for efficient and secure communication. We specialize in integrating communication systems that enhance connectivity and optimize network performance.
- Electronic Development: We have a team of engineers and developers with expertise in creating innovative electronic devices. Our focus is on quality and precision, ensuring that every product meets the highest industry standards.
- Technological Innovation: Innovation is at the core of our company. We constantly explore new technologies and trends to deliver solutions that not only meet current needs but also anticipate and prepare our clients for the future. From artificial intelligence to the Internet of Things (IoT), we stay at the forefront of technological progress.

Services

- Hardware & Software Development: We create customized electronic solutions and applications that enhance productivity and efficiency.
- IoT Solutions: We implement connected devices that enable real-time management and monitoring of various environments.
- Maintenance & Technical Support: We provide ongoing support and maintenance services to ensure your systems operate optimally.

At our company, every project is an opportunity to innovate and deliver exceptional results. We take pride in being a reliable and effective partner for our clients, helping them tackle today's and tomorrow's technological challenges.
